 Table of Contents 9

Author's Preface 11

Course Introduction 17

Doping Agents & Prescription Drugs . . 19
 Genetic Endowment 20
 Youth 20
 A Burning Desire to Succeed 20
 Tolerance to Pain 20
 Professional Coaching 20
 Advanced Training Equipment 21
 Sophisticated Sport Training Protocols . 21
 Skill Training 21
 Resistance Training 21
 Sport Psychology 21
 We Are All Unique 22
 Build A Solid Foundation 22
 What is Health? 23

Module One A Brief Outline 24

Human Anatomy 24
 Module One Purpose 25
 Important Terms and Concepts 26
 Educational Objectives 26
 Student Assignment 27

The Muscular System 28

Myogenesis 30
 Skeletal Muscle Tissue 31
 Composition of Muscle & Fat 31
 Muscle Contraction 33
 The Sliding Filament Model 34
 All or Nothing Principle 36
 Energy Sources for Contraction 36
 Muscle Fiber Types 38
 How Muscles Grow 39
 Utility of Muscle 40
 Basic Muscle Groups 43
 Sarcopenia 47
 Ten Biomarkers of Vitality That
 You Can Alter 49
 Smooth Muscle 51
 Cardiac Muscle 52

The Cardiovascular System 53

The Structure of the Heart 54
 Heart Rate Variability 55
 Cardiac Output 56
 Some Good news 62
 Blood Pressure & Pulse 63
 Measuring Blood Pressure 64
 Blood 70
 Types of Blood Cells 70
 Blood Type (ABO) 73
 Leukocytes 74
 Platelets 76
 Hemostasis 76

The Skeletal System 80

The Function of Skeletal Tissue 80
 Composition of Bones 82
 Hormonal Control Patterns 84
 Bone Density Scan 84
 Nutrients Involved in Bone
 Remodeling 85
 Osteoporosis 86
 Prevention Begins in Childhood 86

Should Youngsters Lift Weights? 86
 Mineral Supplements 89
 The Articular System (Joints) 91
 Healthy Joints Are Critical 92
 The Humeral Joint (Shoulder) 94
 The Genual Joint (Knee) 95

The Endocrine System 98

Mechanisms of Hormone Action . . . 100
 Principle Endocrine Tissues
 and Glands 101
 Growth Hormone 103
 Stages of Sleep 104
 Insulin 109
 Glucagon 116
 Melatonin 120
 Testosterone 122
 Cortisol 127
 DHEA 132
 Thyroxine and Triiodothyronine . . . 135
 Hormonal Therapy 139

Points to Remember 142

Student Assignment 143
 Student Self-Test Questions 144

References 148

Education 157

Suggested Reading 158
 The Cory Holly Series 159

Module Two A Brief Outline 161

Energy & Cellular Metabolism 161

Additional Articles & Topics

CHI Prime Directive 16

Genetics of Performance 23

The Power of Chi 27

HCG: Diet Disaster 143

Canadian Education Alliance 160

**Adobe
Bookmarks
Symbol**

To access specific pages, sections or points of interest using digital bookmark links for this module please click the Bookmarks symbol displayed on the upper left-hand border of this Adobe PDF (Portable Document Format).

Or click View then scroll down to Show/Hide then across to Navigation Panes, then across to Bookmarks.

PDF Search Engine (Words or Phrases)

When any PDF study module is open, click **Edit** on the top left. Select **Advanced Search** from the drop down menu that appears. A separate search window should appear. Type in the desired word you wish to search for. Click **Search**. The word you typed in, if present in the module, will appear in the context of a sentence or title used in the module. Click the line where it appears, and you'll be taken to that exact page and place in the module. Voila!
